

Letter of Recommendation

I am delighted to write this letter to recommend admission of Ms. Charnya for the master's in Management Information System course at your esteemed institution.

I've known Ms. Charnya for five years, since she started as a software development trainee for our Edutech company in July 2017 and rose to the position of instructional designer & senior developer in June 2019 thanks to her dedication, hard work, and innovative abilities. As the Director of Myschool24x7, I was lucky to be her direct supervisor, and Ms. Charnya joined us as a software development trainee after completing her Bachelor's in Technology specialism in Electronics & Electrical Engineering from one of the best Engineering colleges of our state.

Ms. Charnya is an extremely organized and self-motivated individual and has excellent communication skills. She can perform well within deadlines even under pressure and has the skills to lead a team skilfully. She possesses design thinking abilities and can critically analyse the issues to foresee upcoming problems and has the capability to work out solutions by going beyond the call of duty if required.

Ms. Charnya is a highly organised, self-motivated person with outstanding communication abilities. She can work well under pressure and meet deadlines, and she has the ability to lead a team effectively. She has design thinking skills and can critically examine situations to anticipate future problems, as well as the ability to work out solutions by going above and beyond the call of duty if necessary.

Her team is always a winner because she has a special capacity to push people to do their best. She is intrigued by new ideas and acts only after fully comprehending the situation. Her best attribute is that she is open and honest about her mistakes, even if they are minor.

She deserves to get in-depth knowledge of Management Information System as she can really use that knowledge benefitting the subject, institution, community, and surroundings to say the least. I strongly recommend her admission to your esteemed university and look forward to seeing her emerging as a more resourceful person as higher education opportunity at a world-class institution will add a new dimension to her career.

In case you have any queries, please contact me at the contact details mentioned below.

Thanking you

Sincerely

Gautam Murthy
